

COMMERCIAL IP TRANSFER

24-HOUR PRODUCTION SLA

ZERO-KNOWLEDGE BYOK

TURNKEY WHITE-LABEL OEM SPECIFICATION & ARCHITECTURE

6-Language Real-Time Crypto Defense & Multi-Channel Monetization Infrastructure

TARGET AUDIENCE	ASSET CLASSIFICATION	DELIVERY PROTOCOL
Crypto Hedge Funds, Web3 Alpha Communities, KOLs & Media	Sovereign Intellectual Property & Automated Cash-Flow Stack	Under 24h • 100% Dedicated Private Container • BYOK Zero Margin

01. Executive Summary: Category Shift vs. The Custom Build Trap

STRATEGIC JUSTIFICATION

● The Custom Build Trap (Execution Drag)

✗ **Freelancer Death Spiral:** Sifting through 50+ unverified contract devs who inevitably abandon codebases or fail under flash-crash market volatility spikes.

✗ **The Affiliate Leak:** Funneling elite VIP traffic to external SaaS tools for a meager 20–30% affiliate scrap, completely forfeiting brand equity and user retention.

✗ **The Technical Sunk Cost:** Burning 6 to 9 months and \$150,000+ in developer burn, only to inherit brittle websocket drops, unhandled rate limits, and memory leaks.

⚡ The Institutional Solution: 24h OEM Transfer

✓ **Battle-Tested Production Stack:** Instant possession of a hardened algorithmic defense and 6-language automated broadcasting SaaS on your dedicated host.

✓ **100% Sovereign Ownership:** You own the application, database, and client relationships. Zero revenue splits, zero per-seat penalty taxes, and 100% brand sovereignty.

✓ **Immediate Cash-Flow Generation:** Pre-integrated with Stripe and Whop subscription engines to start billing VIP members immediately upon 24h handover.

02. Commercial Comparison: Build vs. Buy vs. Sovereign OEM

ECONOMICS & RISK PROFILE

EVALUATION METRIC	IN-HOUSE SCRATCH BUILD	TRADITIONAL SAAS LICENSING	TURNKEY WHITE-LABEL OEM (OUR MODEL)
Capital Outlay	\$150,000 - \$220,000+	\$2,500 – \$5,000 / month	\$15,000 - \$30,000 (One-time)
Time-to-Market	6 to 9 Months (Cycle Risk)	1 to 2 Weeks (Generic UI)	Under 24 Hours (Production Ready)
Operating Gross Margin	Negligible until scale amortization	Capped at 60% – 70% (Seat Toll)	98.5% - 100% (Direct BYOK APIs)
IP & Data Custody	Fragmented across contractor repos	Leaked to 3rd-party SaaS database	100% Sovereign Client Ownership
Crash / Volatility Resilience	Extreme (Dropouts during crashes)	Shared multi-tenant API throttle	Zero Vendor Risk (Dedicated Container)

03. Core Institutional Value Drivers & ROI Payback Model

UNIT ECONOMICS

6 LANG

GLOBAL

Simultaneous Dispatch

English, Japanese, Korean, Spanish, Portuguese, Arabic. Zero human translators required.

KIBA 2.0

PROPRIETARY

Whale Trap Defense

Flow-volume cross validation flags BAIT_NO_FLOW traps before predatory exit dumps occur.

BYOK

ZERO MARKUP

100% Operating Margin

Wholesale raw API rates (Gemini Flash <\$0.001/run). You pay zero platform fees forever.

90 DAYS

PAYBACK

Break-Even Velocity

100 VIPs @ \$49/mo = \$58.8k/yr against \$15k license. Rapid amortization into pure cash flow.

HIGH AVAILABILITY

SUB-450MS LATENCY

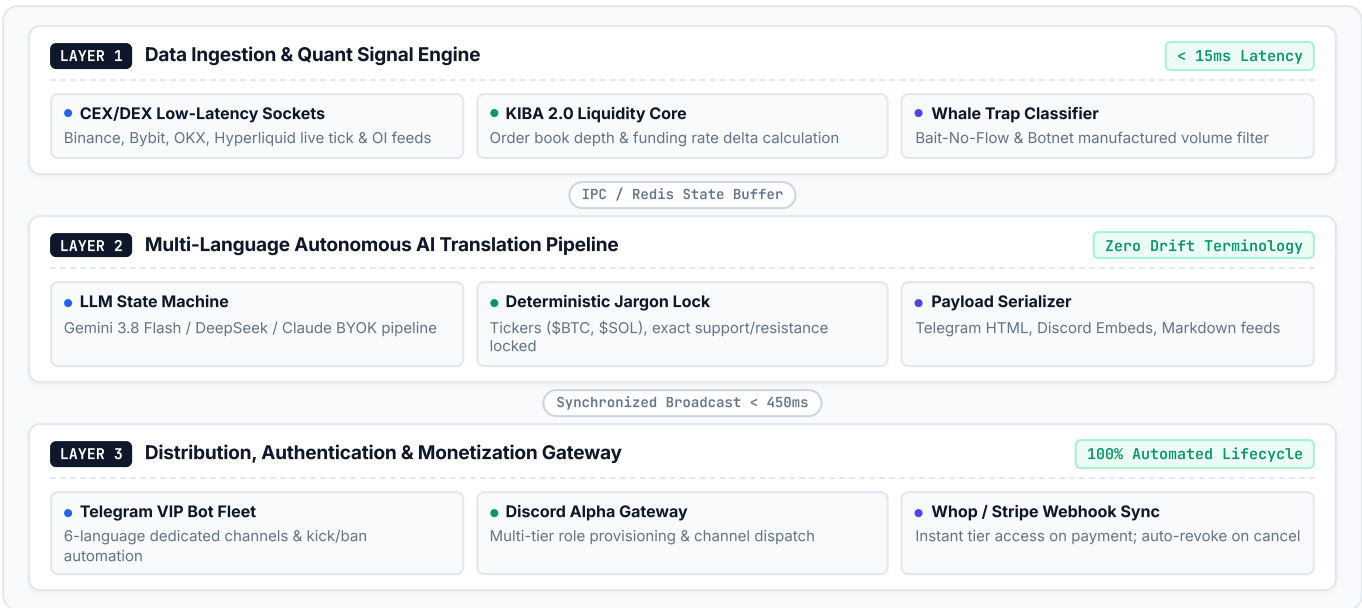

DETERMINISTIC EXECUTION

SYSTEM TOPOLOGY & ENTERPRISE ISOLATION SPECIFICATION

Deterministic Real-Time Signal Processing, Translation Engine & Distribution Gateway

01. Commercial Licensing & Deliverables Matrix

TIER SELECTION GUIDE

SCOPE & DELIVERABLES	TIER 1: CORE ENGINE \$15,000	TIER 2: MULTI-CHANNEL POPULAR \$22,500	TIER 3: SOVEREIGN ECOSYSTEM \$30,000
Supported Languages	3 Languages (EN + 2 of Choice)	Full 6 Languages (EN, JA, KO, ES, PT, AR)	Full 6 Languages + Custom Regional Dictionaries
Distribution Channels	Telegram VIP Bot Engine	Telegram VIP + Discord Webhook Suite	Telegram VIP + Discord + Custom Webhook API
Infrastructure Host	Single Dedicated VPS (Docker)	High-Performance Private VPS	High-Availability Clustered VPS Architecture
Signal & Detection Engine	KIBA 2.0 Core Whale Trap Engine	KIBA 2.0 + Funding / Liquidation Alerts	Full Algorithmic Suite + Macro Sentiment Fusion
Monetization & Billing	Stripe / WarriorPlus Integration	Stripe + Whop Automated Role Engine	Stripe + Whop + Automated Multi-Tier Invoicing
White-Label Customization	Brand Logo, Naming & Color Palette	Full Brand Suite + Carrd Funnel Fleet	Bespoke Custom UI/UX + Domain Infrastructure
Source Code & IP Rights	Perpetual Commercial License	Perpetual Commercial License	100% Full Source Code Transfer (GitHub)
Engineering Support SLA	14 Days Dedicated Setup Support	30 Days Priority Tech SLA	60 Days Priority Dev SLA + 3 Feature Revisions

02. The 24-Hour Zero-Toil Deployment Protocol

GUARANTEED TIMELINE

00:00 - 02:00

STEP 1: Intake & Vault Provision
Client provides logos, target channels, and raw BYOK API keys into isolated zero-knowledge environment.

02:00 - 08:00

STEP 2: Server & Container Assembly
Isolated Linux VPS deployment. Compilation of KIBA 2.0, WebSocket daemons, and systemd supervisors.

08:00 - 14:00

STEP 3: Brand & Language Ingestion
Injection of client identity into alert templates and 6-language terminology preservation lock tables.

14:00 - 20:00

STEP 4: WebSocket Pipeline Sync
Exchange socket calibration. End-to-end dry runs verifying real-time translation and multi-channel broadcast.

20:00 - 24:00

STEP 5: Final Audit & Handover
Delivery of administrative credentials, private repo access, and operational runbook. System goes live.

03. Immediate Next Steps & Upwork Engagement Protocol

ZERO RISK ONBOARDING

Deploy Your Sovereign Crypto Intelligence Platform Tomorrow
Engage with complete confidence through Upwork Enterprise Escrow. 100% of project milestone funds remain strictly protected in escrow until final technical verification, acceptance testing, and sovereign handover are approved by your team.

Message Us on Upwork • Request 5-Min Live Demo

1

Select Tier:

Choose Tier 1 (\$15k), Tier 2 (\$22.5k), or Tier 3 (\$30k).

2

Fund Escrow:

Initiate contract securely via Upwork Project Catalog.

3

Intake Checklist:

Submit server credentials and branding assets.

4

Live in 24h:

Receive fully operational revenue engine under your brand.
